FLAME DETECTION SYSTEM

500 SRM MODULE

KEY FEATURES

- Input signal: from UNISCAN scanner
- Output signal: SPDT contact
- Mounting type: for DIN rail
- Power supply: 230V 50/60Hz,
- LED indicator: power on - flame on
- Relay output: SPDT rating 2A 24VDC
- Transmission: no limit providing supply cable if sized correctly
- Dimensions: 40x79x85mm
- Ambient temp.: -20° to +60°C
- Degree of protection: IP20

USE

- Used with UNISCAN for flame detector applications

APPLY TO

- Boilers
- Burners

MANUFACTURER

Combustion and Energy Srl
Part number:
- 500-SRM-300/230 (MOD-230VAC)
- 500-SRM-300/110 (MOD-110VAC)

500 SRM MODULE

SRM Terminal	Power
1	Power supply 110V or 230V (can vary according to part number)
2	

SRM Terminal	Cable for UNISCAN Flame detector
7	Connector to wire white 1
8	Connector to wire red 2
9	Connector to wire black 3
11	Connector to wire green 4
12	Connector to wire yellow 5
