

200-HEF-5AB-BOX

200-HEF-5AB-BOX

HIGH ENERGY IGNITION SYSTEM

200-HEF-5AB-BOX

KEY FEATURES

- Ignition rod
- Connection to pilot: 1/2" NPT
- Cable connection through ATEX certified box
- Complete with Ex d IIC IP66 terminal box
- Aluminium material (standard version)
- Probe material: SS310
- Spark tip material: SS310
- Probe length according to client request (from 117,5mm to 2948mm in single length - at multiple of 55,5mm)
- Temperature Range: up to 500°C
- External diameter: 14 mm
- Weight: 1kg (for insertion length L=1,5m)

ELECTRICAL FEATURES

- Nominal voltage: 2kV impulsive
- Maximum voltage: 2,7kV impulsive
- Peak current: approx. 500A

INSTALLATION

- Inside pilot

APPLY TO

- Flares
- Furnaces
- Burners

CERTIFICATION

- ATEX certificate FTZÚ 15 ATEX 0182X
- IECEx certificate FTZÚ 15.0035X

MANUFACTURER

CE2K Srl

Part number: 200-HEF-5AB-BOX
